

# Janco was invited to naming and delivery ceremony in Zhoushan

As a freight forwarder, Janco understands the importance of maintaining a good relationship with shipping companies and on 26th of July, 2018 marked a very special day for us and MCC Transport. Janco as a long term partner with MCC Transport was extremely grateful to participate in the naming and delivery ceremony of MCC Tokyo in Zhoushan. During the ceremony, our chairman's partner Noel Tai is deeply honoured that she was named the godmother of this vessel. This further solidify our many years friendship with MCC Transport. This brand new vessel is able to hold 2800 TEU which will be specializing in Bangladesh market, continue to provide supreme services for our customers. Other than MCC Tokyo, there will be 14 more brand new vessels ready to deploy for direct services from Shanghai to Chittagong. In the future, Janco and MCC Transport will continue to co-operate closely to seek for improvements and strive for better services for our customers.
