

Janco Speeds Up Development of Air Charter and CSA Business

13/8/2018

To cope with our business expansion, Janco Holdings Ltd (stock code: 8035.HK) has established Hub Airways Ltd exclusive for the freighter operations and Cargo GSA business in Asia-Pacific region.

We have just signed a lease of a A300-600 cargo freighter (45 tons payload) to operate the services within Asia and cater for the booming of e-commerce business from South China and return of perishable products to China.

We anticipated to start the operation in Q4 of 2018 and believed this new business could contribute very attractive revenue to the group. A further plan is to seek for another aircraft to strengthen our capability for better service in 2019.

Another achievement of Hub Airways Ltd is the newly appointment of Thai Lion Air as their Cargo Sales Agent in China, Thai Lion Air is a well-established airline based in Thailand, having a fleet of over 30 aircrafts including widebody A330 serving between Thailand as a hub to many cities in China and Asian countries
