

Janco Reaches New Milestone in Logistics with China Merchants Group

27/12/2018

In closing of 2018, Janco enters a strategic co-operation agreement with China Merchants Logistics. Our first project would be providing storage and delivery services to their Colgate Project in Hong Kong. During the 3-year co-operation period, both parties are dedicated to introduce more business to strengthen our relationship.

Apart from the appointment, Janco also acquired support from China Merchants Group in warehousing and logistics business development in China in this strategic co-operation. We hope the co-operation could bring along with experience and network from China Merchants Group to our logistics team and eventually help the team to seize business opportunities in China.
