

# Colgate Products Moved into Janco Warehouse

25/01/2019

Colgate products recently moved into our Lau Fau Shan warehouse and daily in-out operations have already begun. To cope with the characteristics of fast-moving consumer goods (FMCG) and the need in storage capacity, our logistics team ordered 5-level racks for the first time to maximize the storage capacity in Colgate section.

Colgate project has now reached the final phase of operations trial-run. The remaining products are anticipated to move into our warehouse around the lunar new year holiday. Delivery services covering all locations around Hong Kong will commence along with the product move-in.
