

Janco Works with Beiqi Foton Motor on First Logistics Project for Automobiles in China

04/02/2019

Janco signed a service agreement with Beiqi Foton Motor in January and will provide logistics and extra value-added services to their Changsha factory.

Janco will provide logistics services for the export of heavy vehicles from Changsha factory of Foton, including road transportation, to various ports in China and freight services to countries in Middle East, Africa and South-east Asia. The group will utilize the experience gained from the project to develop logistics businesses in automobile-related fields.
