

Janco E-Commerce Reaches a New Milestone

Engaged in Contract with Cainiao Logistics

10/09/2019

After 2 years of resources deployment and development, Janco E-Commerce gradually evolved into a high-level cross-border and international E-Commerce solutions provider in Hong Kong. Recently, a huge progress in our business development has been made as Jandoor Supply Chain Management Limited, a joint venture under Janco E-Commerce, is being awarded with a service agreement by Cainiao Logistics, a member of the Alibaba group in China. This project will be operated by our Janco E-Commerce team.

According to the agreement, Janco E-Commerce would be appointed as one of the warehouses and logistics service providers of Cainiao, handling all of the products sourced by Tmall from all over the world. The products will be stored in our flagship warehouse with approx. 110,000 sq. ft. (10,000 sq. m.) space in Lau Fau Shan.

Apart from storage services, Janco will also provide various services such as pick-up and transportation from cargo terminals to warehouse, inspection upon arrival, counting and sorting, inventory management, pick-and-pack, stock-out consolidation and last-mile delivery by professional truck fleet operator. This project is expected to bring us approximately 10,000 daily orders. During the Singles' Day period, it is anticipated to reach a total of half a million orders.

Janco E-Commerce is dedicated to enhance our service level and abilities. Getting appointed by Cainiao Logistics as one of their logistics service providers is definitely an accreditation to our overall company conditions, services and capabilities. We are delighted and honoured to be recognized by such large-scale customers. We will follow the path of continuous improvement and target to generate more values to our customers.
