

Medical Relief Supplies for Germany

05/05/2020

Janco was nominated as Ground Handling Agent for liaising with suppliers in various regions, China Customs Authorities and EgyptAir to arrange pickup, export clearance and loading of over 215 cubic meters of Covid-19 Relief Supplies for the German Red Cross on a full charter of B777 passenger plane from Guangzhou to Frankfurt during the Labour Day holidays.

Despite frequent changes in customs regulations on relief supplies exported from China, Janco worked hand-in-hand with all stakeholders to get cargo cleared and uplifted on time.

Welcome any enquires on ground handling for charter-flights.
