

Our 30th Anniversary Milestone 1990 – 2020

25/05/2020

For over 30 years since the company's found in 1990 by Clarence Cheng, Janco started as a global freight forwarding with a focus on the ocean freight business in Asian market. Over the years, Janco expertise extended from freight forwarding to the provision of one-stop integrated logistics services, customized supply chain solutions, express delivery and e-commerce solutions.

In the recent years, we are expanding our e-commerce business to capture the growing opportunities arising from the increasing demand derived from the increasing e-commerce volume to the United States, other European countries and cross-boarder logistics activities. In addition, we are also developing our e-commerce and fulfillment services for cross border e-commerce traffic from overseas as well as outbound traffic from China to worldwide.

As part of our 30th Anniversary, it is a great chance to share our story and memories about the involvement and experiences of the significant milestone. Janco is planning to organize an annual dinner to celebrate with our management team, key partners, our valued customers and our employees. We believe our employees play an integral role in the success of Janco.

In the future, we will continue to provide professional services across the Asian regions, expand our e-commerce and fulfillment business, become a major logistics services provider across the region.
